See next page for Tripp Lite solutions.

Desktop UPS Systems

Provide battery backup for computers, POS systems and peripherals. Standby and line-interactive models are available.

Network/Server UPS Systems

Power and protect IT equipment with automatic voltage regulation (AVR) and reliable, expandable battery backup. Line-interactive and on-line models are available.

Surge Protectors & Power Strips

Provide convenient outlets and protect equipment from surges. Options include data line protection and USB charging ports.

Power Distribution Units (PDUs)

Horizontal (1U/2U) and vertical (0U) rack-mount PDUs provide reliable network-grade power to connected components. Options include current monitoring and outlet control.

KVMs & Console Servers

Control multiple workstations or servers from a single console with desktop, rack-mount or rack-mount console KVM switches. IP console servers provide remote access to devices.

Display & Digital Signage

Deliver high-resolution video signals to distant displays throughout facilities with high-quality cables, extenders, wall plates, adapters, splitters and switches.

Cables & Connectivity

Choose from hundreds of cables and connectivity solutions to connect devices to network, power, data and A/V sources.

Display Mounts

Optimize viewing angles for comfort and convenience. Choose from desktop, wall-mount and ceiling-mount models with options for tilt and full-motion adjustability.

Rack Enclosures

House, organize and secure rack-mount equipment in a floor-standing or wall-mount enclosure, including a security DVR lockbox.

Cooling

Portable, rack-mount and row-based models deliver cold air where it's needed for more efficient cooling.
