

## ErisStation<sup>®</sup> SIP DECT Expansion Wireless Speakerphone

VCS850

When you need to increase the number of active participants on a call, just add up to three expansion wireless speakerphones to the VCS752 ErisStation SIP Conference Phone. No wires or complicated cords required. Ideal for medium to larger conference rooms, each expansion wireless speakerphone includes two built-in mics, and can be placed around the table. Because of DECT 6.0 technology, participants can spread out and easily be heard without shouting or moving closer to the mics. The full-duplex speakerphones ensure that participants on both ends of the call can clearly hear. Plus, the speakerphone features up to 12 hours of talk time to support long meetings.

### VCS850 Key Features

#### Full-duplex speakerphone in base

Callers can speak and be heard at the same time, just as they would in a face-to-face meeting.

#### Cordless expansion

Collaborating in a large conference room? Pair up to three VCS850 DECT Expansion Wireless Speakerphones to increase the volume and microphone pickup for 27 or more active participants.

#### HD voice quality

With G.722 wideband codec support for HD audio, calls have never sounded so rich and life-like.

#### Up to 12 hours of wireless talk time

With 12 hours of talk time, you have plenty of room to keep the meeting going on one charge.

#### Up to 70 hours of standby time

With up to 70 hours of standby time, there's no need to worry about losing a charge mid-meeting.

#### 2-year standard warranty

Enjoy the peace of mind that comes with an industry-leading, standard two-year warranty.
